Honorable Mr. Ambassador of the United States of America and the whole Group.

Welcome honorable Ambassador of the United States of America for Indonesia in Jakarta and the whole Group to East Timor. We are very happy and very gratefull for your coming to see the situation of East Timor where people have been suffering for a long time namaly since the invasion of indonesia in 1975 up to day.

Bacause we are as young people of East Timor and then we have plaiy an important role in sharing and developing our people of our societes in East Timor so we to try as far as we can.

We have been raising and yelding the cuthside world and the the United Nations Organization agency who is in charge for the human rights and rights of self determination but we don't always get them as if they didn't pay any attention and just ignore the invasion of indonesia.

And we are now here standing before you and asking all your help your attention so you could take a wise meansure about the - norms of humanity and sosial justice in East Timor.

What is stated in the charter of the United Nations Organization that each nations wethe the great or small nations and wethe rich or poor nations they have the same right to be free and-politick. And then that is what the whole people of East Timor are crying and asking for.

The Indonesians Goverment has hold the power over Timorese people within 15th years, where many people had been killed because the hardness of the military.

And finally the population of about 700.000 now decreases - to 350.000.

The ocupation of indonesian in East Timor, violates the In - ternational law and more than that violates the two most basic te nets of United Nations Organization namely:

Respectfull for terytorial bounderies

The Universal rights of selfdetermination

After years and years so many people had been killed by the Military.

And actually there are some worts cases that have been making us suffer they include, the following:

a) Surveilhance of towns strategic hamlets makes transmission is dificult and dangerous.

b) We are not allowed to talk in group, listen to foreign broadcast or make telephone calls outside of East Timor.

c) People who speak with foreigns interogated, beaten sometimes killed.

d) Eventhough East Timor has suffered a huge population but Indonesian is still forcing a sterilization and birth countrol program upon Timorese women of child bearing age.

e) Burning Houses and destroying property.

f) It is hard for Timorese people to get job.

This is not pure bunk, but this is something really and true.

Because we know that United States is a great Nation, a very civilized Nation and is a very respectfull Natin to the human rights and the rights of the Nations in the world, so in this opportunity we really desire to demand our rights.

That's all, thank you

Long live United States

Long live East Timor

Dily, 17th January of 1990.
